Dear Dr. Dewantoro,

Since your revised version of the manuscript has many corrections, I needed more time than expected to edit the final form of it. Moreover, I am not at the office for the next week, but I have the laptop with me and I work every day on many papers. The only problem is the slow Internet connection here.

By the way, I am that editor you say about "is that still processed by **editor**? because, we have still not received the final proof of our manuscript".

I hope to be able to send you the final form tomorrow. Anyway, the paper will be published in the current issue (11/2).

Thank you!

Cordially yours,
Claudiu Gavrioloaie

Dear Dr. Dewantoro,

The paper has passed the preliminary analysis. We can have the complete review within the next 7-10 days.

In case of acceptance, you will have to pay a publication fee of 200 USD + bank taxes. The

variants of payment will be sent to you at that moment.

For now, I only need from you to approve sending the paper to reviewers for the final revision.

Thank you!

Respectfully yours,
