Dear Dr. Claudiu Gavriiloaie,

I apologize for having made the mistake of highlighting my corrections and your corrections at the same time, causing you to spend a lot of time re-editing.

After I read your edits, I approved my article entitled 'Effect of aeration level on water quality and growth performance of tinfoil barb (*Barbonymus schwanenfeldii*)' to be published.

I would like to thank AACL Bioflux for agreeing to publish my article.

Cordially yours,
Eko Dewantoro

Dear Dr. Eko Dewantoro,

When I sent you the review of your article I kindly asked you to: highlight with a bright color the changes **you** will do in text; and to keep our red correction unchanged so we can easily distinguish between the two types of corrections (yours and ours). Since you marked yellow both our corrections and yours corrections made us to spend a lot of time to distinguish between the two types.

However, we managed to edit the final form. So, kindly check it carefully and then let me know if you agree with the publication in this form.

The title is already available on the journal's website: <http://www.bioflux.com.ro/home/volume-16-3-2023/>.

Thank you!

Sincerely yours,
Claudiu Gavrioloaie

Dear Dr. Claudiu Gavrioloaie

I want to ask if my article entitled "Effect of aeration level on water quality and growth performance of tinfoil barb (*Barbonymus schwanenfeldii*)," which has been corrected according to the reviewer's results, is worthy of publication or if there is still something that needs to be improved. To this day, I have not received any corrections to the article from the reviewers. I also want to ask when my article will be published: will it be published in volume 16(2)/2023 (April 2023) or in volume 16(2)/2023 (June 2023)?

I really hope for your response soon.

Thank you very much for your kindness!

Dear Dr. Claudiu Gavrioloaie

I apologize for the delay in responding to your email. This is because I took time off during Eid Al-Fitr, but now I'm back at work.

I have corrected the article submissions that have been reviewed, and I am sending them back for immediate publication.

Regarding the bill for publication costs, I will pay it soon.

Thank you very much for your kindness.

Sincerely Yours,
Eko Dewantoro

Subject: the complete review of the paper "Effect of aeration level on water quality and growth performance of tinfoil barb ..."

Dear Professor Eko Dewantoro,

After another hard work on the manuscript, I am sending you the full review. We made lots of edits and all kinds of corrections, which we marked red and blue.

For addressing the comments, kindly work in the attached document only and highlight with a bright color all the changes you will do in text. Our red/blue corrections need to remain unchanged so we can easily distinguish between them and your upcoming ones.

Concerning the processing fee of 250 USD (+ bank taxes) pay it through one of the two variants below and then send me a scan copy of the bank document.

I will look forward to your reply.

Thank you very much!

Sincerely yours,
Claudiu Gavrioloaie

1st variant of payment:

Beneficiary: Bioflux SRL

City: Cluj-Napoca,

Country: Romania, European Union;

SWIFT CODE of the bank: BTRLRO22

Account no. 213USDCRT00L2861401

IBAN:

USD: RO68BTRL01302202L28614XX (Cluj-Napoca)

EURO: RO19BTRL01304202L28614XX (Cluj-Napoca)

Bank:

BANCA TRANSILVANIA

Important! When bank transfer is used to pay a publication fee, please pay attention to which modality of payment you chose! There are three options: Ben, Our, Us.

Use always "Us" option (meaning that all the bank transfer costs are in your concern/ authors support them and not the publisher). If you forgot to mention that and you let the bank to set "Ben" or "Our" options, we receive about 230 usd instead of 250 usd. Such payments are not valid and you need to pay again for the rest of the sum and one more transfer charge.

2nd variant of payment:

via Paypal. If you can process such a payment we can start the online form. For this variant, please contact dr. Petrescu-Mag (zoobiomag2004@yahoo.com).
