Dear Author,

We have reached a decision regarding your submission to Technium Business and Management, " The influence of occupational health and safety on job satisfaction of permanent employees PT. Star Rubber, Kubu Raya Regency "

Our decision is: Revisions Required

The results of the reviews of reviewers A and B that we summarize:

1. Pay attention to citations from various relevant sources.
2. There are still many words that are difficult to understand from the term on job satisfaction and permanent employees.
3. The analysis is still not in depth, it needs an explanation of the discussion to add insight to the readers
4. Introduction needs to be fundamental to the problem under study at least there is an initial explanation with observational data
5. Conclusions should be more concise and explain the purpose.

Best Regards,

Editor officer
